

YOUR PRODUCT PACKAGE

Aether

Serene Wellness Hero

A serene full-bleed wellness homepage over golden-hour ocean waves. Calm confidence, ready to build with your favorite AI coding tool.

WHAT IS INSIDE

- Your background video link (and how to use the file)
- A ready prompt for Cursor, Claude, Grok Build, Lovable, Codex, Bolt or any smart AI
- Simple ways to ask your AI to customize text, colors, and the video look

You do not need to know how to program. Your AI does the technical work.

www.ClickMotion.dev

Start here (about 10 minutes)

Follow these steps in order. If you get stuck, paste the error message into the same AI and ask it to fix the project for you.

Step 1

Save your background video somewhere easy to find. You can use the link below or the video file that came with this package.

Step 2

Open the AI tool you already use.

Step 3

Find that tool's section in this PDF (or "Your Smart AI Agent" if your tool is not listed by name). Select the whole prompt under "Copy this into [tool]". Copy it.

Step 4

Paste it into a new chat or project in that tool and run it. Let the AI build everything.

Step 5

When the preview looks absolutely stunning, ask your AI: "Explain in plain language how I open and share this site."

Step 6

To change wording, colors, or branding, use the "Ask your AI to change..." lines later in this PDF. You do not edit code by hand unless you want to.

YOUR BACKGROUND VIDEO LINK

<https://www.ClickMotion.dev/assets/videos/aether-waves-web-v1.mp4>

Offline file name if you were given a file: aether-waves-web-v1.mp4. A still image may be included next to your video file for a clean first frame.

Your background video

This is the film that plays behind the Aether design. Keep this link. It is also written inside every AI prompt below so your AI can attach it automatically.

VIDEO URL

<https://www.ClickMotion.dev/assets/videos/aether-waves-web-v1.mp4>

File name: aether-waves-web-v1.mp4

What the film shows: calm ocean waves at golden hour, soft shoreline light, slow meditative motion. About 12 seconds, silent, seamless loop.

Prefer the URL when online. If you were given a local download, tell your AI: "Use my local file aether-waves-web-v1.mp4 as the full-screen background video."

Copy this into Cursor

Select everything in the box area below (all parts if more than one page). Copy, then paste into Cursor. You do not need to understand the technical lines. Your AI does.

You are building production UI in my coding editor (Cursor). Create the files I need and keep the solution clean and complete.

Build a premium full-viewport website hero for a wellness and meditation brand called AETHER.

BACKGROUND VIDEO (required):

Use this video as the full-screen background film (not a small thumbnail):

<https://www.ClickMotion.dev/assets/videos/aether-waves-web-v1.mp4>

If the user has a local file named aether-waves-web-v1.mp4, use that file path in the project instead of downloading.

The video must be silent, muted, looping, autoplay, playsinline. It is a calm wallpaper loop (not scroll-scrub). Pause when off-screen if you can (IntersectionObserver).

REQUIRED look of the film: golden-hour ocean waves, shoreline, warm natural light, meditative slow motion. No people, no aircraft, no cities, no neon, no text in the film.

LOOK AND FEEL:

Light, serene, biophilic. Cream wash over the video so waves stay visible: linear-gradient from rgba(253,251,247,0.15) to about 0.5 opacity at the bottom. Never cover the ocean with solid beige.

Text dark sage #2D3E35. Accent sage #7BA58F. Optional warm gold #D4A373. Muted body #5C6B63. Cream #FDFBF7.

Display type: Playfair Display. Body and nav: Inter.

Feels like calm premium wellness (Apple mindfulness x Aesop restraint). Never purple SaaS gradients, neon, aviation/jet lifestyle, fintech chrome, shiny rainbow text, or emoji overload.

LAYOUT (single full-viewport hero):

Fixed glass navbar (height about 64px): left brand AETHER plus a small sage dot; center links Meditate, Sleep, Breathe, Stories, Pricing (hide center links on small phones); right pill button "Start Free Trial" sage fill with cream text.

Centered hero content with breathing room:

1) Small badge: FIND YOUR CENTER (optional star), uppercase, sage

2) Huge H1: Breathe. dark sage, clamp about 2.8rem to 6.75rem, Playfair

3) Subline: Be. sage color, about 0.58 times the H1 size, never larger than Breathe.

4) Description exact: Guided meditations, sleep stories, and breathwork designed to help you find calm in a chaotic world.

5) Primary CTA pill: Start Your Journey (with a simple arrow icon if available). Sage fill, cream text. On mobile keep max width about 280px centered, not edge-to-edge full bar.

No floating side cards. Calm centered composition only. Safe horizontal padding so type never clips.

MOTION:

Staggered entrance (badge, headline, Be., description, CTA). Stagger about 0.12s, ease [0.25, 0.46, 0.45, 0.94]. Optional gentle video scale parallax 1 to 1.05 with scroll (skip on mobile and reduced-motion). Reduced-motion: simple opacity fade only.

TECHNICAL (you the AI implement this):

Modern web stack that works in my tool. Prefer one main hero component. Video: autoPlay muted loop playsinline. Light cream wash over video. Support reduced-motion. Focusable CTAs. Premium mobile layout.

QUALITY BAR:

It should feel like a real wellness product homepage, not a generic AI template. Ocean must remain the star under a light wash.

When done: I should see the full Aether experience with the background video linked above and every layout requirement above. If something is missing, fix it without asking me for code knowledge.

Your Smart AI Agent prompt (continued)

something is missing, fix it without asking me for code knowledge.

Customize without coding

You never have to open code. After the site is built, start a new message to the same AI and paste one of these lines. Fill in the brackets with your words.

Change the brand name

Ask your AI: "Change the brand name AETHER to [YOUR BRAND NAME] everywhere, including the top left."

Change the big headlines

Ask your AI: "Change Breathe. to [YOUR MAIN WORD] and Be. to [YOUR SECOND WORD]. Keep Be. smaller than the main word."

Change the badge and description

Ask your AI: "Change the badge FIND YOUR CENTER to [YOUR BADGE]. Change the description paragraph to [YOUR DESCRIPTION]."

Change button labels

Ask your AI: "Rename Start Free Trial to [NAV BUTTON]. Rename Start Your Journey to [HERO BUTTON]."

Change colors

Ask your AI: "Keep the calm wellness look, but change sage from #7BA58F to [YOUR HEX] and keep text easy to read on the video."

Use a different background video

Ask your AI: "Replace the background video with [YOUR VIDEO LINK OR FILE NAME]. Keep it muted, looping, full screen, with a light cream wash so the film stays visible."

Make it work on phones

Ask your AI: "Improve the mobile layout so text never clips, the CTA is easy to tap, and the hero still feels calm and premium."

Something looks wrong

Ask your AI: "Something is broken: [DESCRIBE WHAT YOU SEE]. Fix it and keep the Aether wellness style. Do not ask me to write code."

New background video (optional)

Only if you want a different film. Open a video generation AI, paste the prompt below, generate a silent clip about 12 seconds long, then ask your coding AI to use your new file as the background.

COPY THIS INTO A VIDEO AI

Cinematic 4K seamless loop, 10 to 14 seconds, no audio. Camera just above a calm shoreline at golden hour looking toward the horizon. Slow turquoise waves roll toward the lens with soft foam. Warm low sun, gentle haze, creamy highlights, natural reflections on water. Extremely slow contemplative motion, 24 frames per second feel. No people, no boats, no aircraft, no text, no UI. Pure nature wellness atmosphere. Seamless loop.

Then tell your coding AI

Ask your AI: "Use my new video file [FILE NAME OR LINK] as the full-screen background. Keep the same Aether layout and behavior."

You are ready

- Your video link is on the video page of this package and inside every tool prompt.
- Pick one AI tool (or Your Smart AI Agent), paste that full prompt, and let it build.
- Customize by asking your AI in plain English. You do not need to know React or other frameworks.
- Brand site: www.ClickMotion.dev
