Direct-response prestige, ready for your AI coding tool.

WHAT IS INSIDE

- Your background video link (and how to use the file)

Start here (about 10 minutes)

Follow these steps in order. If you get stuck, paste the error message into the same AI and ask it to fix the project for you.

Step 1

Save your background video somewhere easy to find. You can use the link below or the video file that came with this package.

Step 2

Open the AI tool you already use.

Step 3

Find that tool's section in this PDF (or "Your Smart AI Agent" if your tool is not listed by name). Select the whole prompt under "Copy this into [tool]". Copy it.

Step 4

Paste it into a new chat or project in that tool and run it. Let the AI build everything.

Step 5

When the preview looks absolutely stunning, ask your AI: "Explain in plain language how I open and share this site."

Step 6

To change wording, colors, or branding, use the "Ask your AI to change..." lines later in this PDF. You do not edit code by hand unless you want to.

YOUR BACKGROUND VIDEO LINK

<https://www.ClickMotion.dev/assets/videos/acne-secret-v1.webm>

Offline file name if you were given a file: acne-secret-v1.webm. A still image may be included next to your video file for a clean first frame.

Your background video

This is the film that plays behind the AcneSecret design. Keep this link. It is also written inside every AI prompt below so your AI can attach it automatically.

VIDEO URL

<https://www.ClickMotion.dev/assets/videos/acne-secret-v1.webm>

Customize without coding

You never have to open code. After the site is built, start a new message to the same AI and paste one of these lines. Fill in the brackets with your words.

Change the unlock brand name

Ask your AI: "Change the unlock brand AETHERA CLEAR to [YOUR BRAND]. Keep it hidden until email submit. Remove synthetic demo labels if this is a real product."

Rewrite HVCO copy

Ask your AI: "Rewrite the WARNING headline, body, three bullets, and CTA for [MY SKINCARE BRAND]. Keep news-style cadence. No medical cure claims. No body shame."

Change colors

Ask your AI: "Keep near-black prestige. Change canvas #070708, cream #f4f1ea, and gold #f5c518 to [CANVAS], [CREAM], [ACCENT]."

Use a different film

Ask your AI: "Replace the hero film with [FILE] and update the poster. Keep muted free-play, 15s cinema hold, then left dock. Never scrub video.currentTime with scroll."

Change cinema timing

Ask your AI: "Change CINEMA_S from 15 to [8|12|20]. Keep moderate dock ease. Never bind scroll to film time."

Wire a real form backend

Ask your AI: "On submit, POST name and email to [MY ESP OR WEBHOOK] and keep the unlock UI success state."

Make it work on phones

Ask your AI: "Keep stacked film + form on small screens, 44px targets, readable type, and brand locked until email."

Something looks wrong

Ask your AI: "Something is broken: [DESCRIBE]. Keep free-play muted film, 15s cinema hold, left dock + lead form, brand until email. No cure claims. Do not ask me to write code."

New background video (optional)

Only if you want a different film. Open a video generation AI, paste the prompt below, generate a silent clip about 12 seconds long, then ask your coding AI to use your new file as the background.

COPY THIS INTO A VIDEO AI

Cinematic ultra-premium 16:9 silent loop, 20-50s, 24fps. Premium clear-skin ritual energy, soft clinical luxury light, optional product vessel without competitor brands. No medical gore, no body-shame montage, no UI captions. After export: public/assets/videos/acne-secret-v1.webm and poster webp. Keep muted free-play; never scrub with scroll.

Then tell your coding AI

Ask your AI: "Use my new video file [FILE NAME OR LINK] as the full-screen background. Keep the same AcneSecret layout and behavior."
