# Axiom

## Fintech Inverted Markets Hero

An institutional fintech homepage where a full uncut inverted NYC film meets a fixed true-north horizon - order when markets flip, ready for your AI coding tool.

### WHAT IS INSIDE

- Your background video link (and how to use the file)
- A ready prompt for Cursor, Claude, Grok Build, Lovable, Codex, Bolt or any smart AI
- Simple ways to ask your AI to customize text, colors, and the video look

You do not need to know how to program. Your AI does the technical work.

## Start here (about 10 minutes)

Follow these steps in order. If you get stuck, paste the error message into the same AI and ask it to fix the project for you.

### Step 1

Save your background video somewhere easy to find. You can use the link below or the video file that came with this package.

### Step 2

Open the AI tool you already use.

### Step 3

Find that tool's section in this PDF (or "Your Smart AI Agent" if your tool is not listed by name). Select the whole prompt under "Copy this into [tool]". Copy it.

### Step 4

Paste it into a new chat or project in that tool and run it. Let the AI build everything.

### Step 5

When the preview looks absolutely stunning, ask your AI: "Explain in plain language how I open and share this site."

### Step 6

To change wording, colors, or branding, use the "Ask your AI to change..." lines later in this PDF. You do not edit code by hand unless you want to.

YOUR BACKGROUND VIDEO LINK

<https://www.ClickMotion.dev/assets/videos/axiom-upside-v1.mp4>

Offline file name if you were given a file: axiom-upside-v1.mp4. A still image may be included next to your video file for a clean first frame.

## Your background video

This is the film that plays behind the Axiom design. Keep this link. It is also written inside every AI prompt below so your AI can attach it automatically.

VIDEO URL

<https://www.ClickMotion.dev/assets/videos/axiom-upside-v1.mp4>

File name: axiom-upside-v1.mp4

What the film shows: a continuous inverted New York City golden-hour street run, cars and buildings flipped, sun low on the horizon, uncut motion. About 10 seconds, silent, loops.

Prefer the URL when online. If you were given a local download, tell your AI: "Use my local file axiom-upside-v1.mp4 as the full-screen background video."

# Copy this into Cursor

Select everything in the box area below (all parts if more than one page). Copy, then paste into Cursor. You do not need to understand the technical lines. Your AI does.

You are building production UI in my coding editor (Cursor). Create the files I need and keep the solution clean and complete.

## Customize without coding

---

You never have to open code. After the site is built, start a new message to the same AI and paste one of these lines. Fill in the brackets with your words.

### Change the brand name

Ask your AI: "Change the brand name AXIOM to [YOUR BRAND] everywhere, including the top left wordmark and footer label."

### Change the headline

Ask your AI: "Change When markets / turn upside down, / we still know up. to [YOUR THREE LINES]. Keep the third line italic cream."

### Change the lead

Ask your AI: "Change the two-line lead to [LINE 1] then [LINE 2]. Keep line 1 as one full sentence and both following sentences on line 2."

### Change the proofs

Ask your AI: "Replace the three proof chips with [VALUE + LABEL] x3. Keep glass + gold rim."

### Change the calm line

Ask your AI: "Change Wise, precise and tactical positions maintain the calm. to [YOUR LINE]. Keep it one quiet sentence."

### Change the CTA

Ask your AI: "Rename Read the thesis to [YOUR CTA] and Request access to [YOUR NAV CTA]. Keep ivory luxury buttons."

### Use a different background video

Ask your AI: "Replace the background video with [YOUR VIDEO LINK OR FILE]. Keep it muted, looping, free-playing, FULL uncut. Do not scroll-scrub. Keep the true-north horizon level."

### Something looks wrong

Ask your AI: "Something is broken: [DESCRIBE WHAT YOU SEE]. Fix it and keep Axiom institutional true-north fintech. Do not ask me to write code."

## New background video (optional)

Only if you want a different film. Open a video generation AI, paste the prompt below, generate a silent clip about 12 seconds long, then ask your coding AI to use your new file as the background.

COPY THIS INTO A VIDEO AI

Cinematic 4K silent seamless loop, about 10 seconds, 24fps. Inverted New York City street at golden hour, cars and architecture upside down, sun on horizon, serious and cinematic. No logos, no UI text, no watermark. Full continuous run.

### Then tell your coding AI

Ask your AI: "Use my new video file [FILE NAME OR LINK] as the full-screen background. Keep the same Axiom layout and behavior."
