

YOUR PRODUCT PACKAGE

Bloom

Kids & Teen Girls Yoga Course Hero

A sunlit kids and teen girls yoga homepage where a living class film free-plays under a Kids/Teens course path, modules, and app CTAs. Soft paper craft, ready for your AI coding tool.

WHAT IS INSIDE

- Your background video link (and how to use the file)
- A ready prompt for Cursor, Claude, Grok Build, Lovable, Codex, Bolt or any smart AI
- Simple ways to ask your AI to customize text, colors, and the video look

You do not need to know how to program. Your AI does the technical work.

www.ClickMotion.dev

Start here (about 10 minutes)

Follow these steps in order. If you get stuck, paste the error message into the same AI and ask it to fix the project for you.

Step 1

Save your background video somewhere easy to find. You can use the link below or the video file that came with this package.

Step 2

Open the AI tool you already use.

Step 3

Find that tool's section in this PDF (or "Your Smart AI Agent" if your tool is not listed by name). Select the whole prompt under "Copy this into [tool]". Copy it.

Step 4

Paste it into a new chat or project in that tool and run it. Let the AI build everything.

Step 5

When the preview looks absolutely stunning, ask your AI: "Explain in plain language how I open and share this site."

Step 6

To change wording, colors, or branding, use the "Ask your AI to change..." lines later in this PDF. You do not edit code by hand unless you want to.

YOUR BACKGROUND VIDEO LINK

<https://www.ClickMotion.dev/assets/videos/luna-yoga-v1.mp4>

Offline file name if you were given a file: luna-yoga-v1.mp4. A still image may be included next to your video file for a clean first frame.

Your background video

This is the film that plays behind the Bloom design. Keep this link. It is also written inside every AI prompt below so your AI can attach it automatically.

VIDEO URL

<https://www.ClickMotion.dev/assets/videos/luna-yoga-v1.mp4>

File name: luna-yoga-v1.mp4

What the film shows: a sunlit multi-girl stylized yoga class in a bright white studio, diverse characters, rainbow mats, belonging circle energy. About 45 seconds, silent, seamless loop feel. No logos, no UI, no readable text. Pack also includes poster still luna-yoga-v1.webp. If you have the files zip, client film lives under assets/ as luna-yoga-v1.mp4.

Prefer the URL when online. If you were given a local download, tell your AI: "Use my local file luna-yoga-v1.mp4 as the full-screen background video."

Copy this into Cursor

Select everything in the box area below (all parts if more than one page). Copy, then paste into Cursor. You do not need to understand the technical lines. Your AI does.

You are building production UI in my coding editor (Cursor). Create the files I need and keep the solution clean and complete.

Build a premium full-viewport website hero for a kids and teen girls yoga course + app brand called BLOOM.

BACKGROUND VIDEO (required):

Use this video as the full-screen class film under the hero (not a small thumbnail):

<https://www.ClickMotion.dev/assets/videos/luna-yoga-v1.mp4>

If the buyer has a local files pack, use assets/luna-yoga-v1.mp4 placed at public/assets/videos/luna-yoga-v1.mp4 (or the path already set in source).

Poster still (while loading / reduced motion still): public/assets/posters/luna-yoga-v1.webp (or

<https://www.ClickMotion.dev/assets/posters/luna-yoga-v1.webp>).

The video must be silent. It MUST free-play as a muted looping class film (autoplay, muted, loop, playsinline). Scroll does NOT control video time. NEVER set video.currentTime from scroll. Optional desktop-only light scale parallax on the film WRAPPER only (scale about 1 to 1.05), never on the timeline.

LOOK AND FEEL:

Canvas warm paper #fff8f5. Ink type #2a2438. Lilac accent #c4a8e8. Peach solid CTA #ffb5a7. Kids butter pill #ffe8a3. Teens soft mint #b8e0d2.

Display and UI: Plus Jakarta Sans (or equal soft geometric), medium-semibold weight, tracking slightly tight on H1, line-height about 0.95, size clamp roughly 2.4rem to 5rem.

Body 15-16px, ink about 72 percent opacity.

Cream glass (paper about 72 percent + blur about 28px) for secondary controls and the age path. Full pills (radius 9999px). Soft shadows. Soft kids education prestige meets beauty-commerce warmth. Belonging class energy. Not adult dark spa, not neon cyber yoga, not emoji kids junk, not body-shame fitness, not STILL night hybrid scrub, not espresso travel wallpaper.

LAYOUT (exact structure):

Full viewport hero (100dvh / min-h 100dvh), overflow hidden, warm paper canvas under the film.

Video absolute cover, object-fit cover, under content.

Dual paper gradients over the film so type stays legible: left paper type field, bottom vignette, soft lilac rim glow at lower right. NEVER grey-wash the entire frame.

Fixed top nav: flower mark (lucide Flower2 or equal) + BLOOM wordmark left; desktop center links Classes, App, Ages, Stories; right: Sign in (glass pill) + Get the app (solid peach pill).

Content grid: left column about 6-7 of 12 cols on desktop, vertically centered or bottom-aligned on small screens, safe horizontal padding at least about 2rem:

- Age path tablist Kids | Teens (glass pill; active kids uses butter fill, active teens uses soft mint fill)
- Badge (soft micro): Kids "For girls 7-12" / Teens "Course + app for teens"
- H1 two lines Plus Jakarta: Kids "Soft strength. / Big smiles." · Teens "Your calm. / Your circle."
- Body paragraph matching the active path
- Dual CTAs: primary free class (peach solid) + secondary get/download app (glass)
- Module chips with minutes (four per path); selecting a chip updates the phone card
- Quiet proof stats: 120+ interactive classes · 7-17 ages welcome · 10 min starter flows
- Parent trust line: Made for girls. Easy for parents to start.

Right column desktop: soft cream phone card showing active module title, minutes, and path meta (Kids/Teens).

Hide center nav under 768px. Stack CTAs on small screens. Disable film parallax under 768px. Touch targets at least 44px.

KIDS PATH DEFAULT COPY:

Badge For girls 7-12. H1 Soft strength. / Big smiles. Body: Short classes you can finish. Breathe, stretch, and feel proud in your own body.

Whisper Join the circle. CTAs Start free class · Get the app. Modules Breathe 5, Stretch 8, Animal flows 10, Wind-down 7. Phone app title

Cursor prompt (continued)

Morning stretch circle · 8 min · Kids.

TEENS PATH COPY:

Badge Course + app for teens. H1 Your calm. / Your circle. Body: Flows for busy school days, soft nights, and real confidence. No judgment. Just show up. Whisper Come as you are. CTAs Join free · Download app. Modules Focus 8, Flow 15, Soft strength 12, Sleep wind-down 10. Phone app title After-school reset · 12 min · Teens.

MOTION (exact):

Staggered entrance fade/up with ease [0.25, 0.46, 0.45, 0.94] about 0.7s for badge, titles, body, CTAs, modules, phone card.

Age path toggle crossfades the copy stack about 0.35s while the film keeps free-playing.

Module select updates phone card without stopping the film.

Desktop only: GSAP ScrollTrigger scales the film wrap 1 to 1.05, scrub about 1.2, start top top, end bottom top. Film time stays free-play loop.

prefers-reduced-motion: opacity-only or static entrance, no parallax, video paused on poster still.

TECHNICAL (you the AI implement this; the human may not be a developer):

Prefer React + TypeScript + Tailwind with one drop-in component (BloomYogaHero). If a files pack is available, prefer integrating source/BloomYogaHero.tsx over rewriting.

Video attributes: muted, playsInline, autoPlay, loop, preload auto, object-fit cover, aria-hidden.

IntersectionObserver: pause when off-screen, play when visible.

Fonts: load Plus Jakarta Sans with display swap. Prefer CSS variables --font-bloom-display and --font-bloom-body with system fallbacks.

Install when needed: framer-motion, gsap (+ ScrollTrigger), lucide-react.

Focus rings lilac. Semantic section, header, nav, h1, role=tablist for age path. Safe side padding so type never kisses the frame edge.

Soft-power language only. No body shame. No medical claims. No competitor brand names in UI.

QUALITY BAR:

It should feel like a Forbes-class kids wellness product homepage - soft, inevitable, expensive, impossible not to join. One clear system: free-play belonging class film + Kids/Teens path restage + peach craft. Never scrub the film. Never burn storefront UI into the rebuild. Never adult night spa.

When done: I should see the full Bloom experience with the background video linked above and every layout requirement above. If something is missing, fix it without asking me for code knowledge.

Copy this into Claude

Fixed top nav: flower mark (lucide Flower2 or equal) + BLOOM wordmark left; desktop center links Classes, App, Ages, Stories; right: Sign in (glass pill) + Get the app (solid peach pill).

Content grid: left column about 6-7 of 12 cols on desktop, vertically centered or bottom-aligned on small screens, safe horizontal padding at least about 2rem:

- Age path tablist Kids | Teens (glass pill; active kids uses butter fill, active teens uses soft mint fill)
- Badge (soft micro): Kids "For girls 7-12" / Teens "Course + app for teens"
- H1 two lines Plus Jakarta: Kids "Soft strength. / Big smiles." · Teens "Your calm. / Your circle."
- Body paragraph matching the active path
- Dual CTAs: primary free class (peach solid) + secondary get/download app (glass)
- Module chips with minutes (four per path); selecting a chip updates the phone card
- Quiet proof stats: 120+ interactive classes · 7-17 ages welcome · 10 min starter flows
- Parent trust line: Made for girls. Easy for parents to start.

Right column desktop: soft cream phone card showing active module title, minutes, and path meta (Kids/Teens).

Hide center nav under 768px. Stack CTAs on small screens. Disable film parallax under 768px. Touch targets at least 44px.

KIDS PATH DEFAULT COPY:

Badge For girls 7-12. H1 Soft strength. / Big smiles. Body: Short classes you can finish. Breathe, stretch, and feel proud in your own body.

Codex / ChatGPT prompt (continued)

Whisper Join the circle. CTAs Start free class · Get the app. Modules Breathe 5, Stretch 8, Animal flows 10, Wind-down 7. Phone app title Morning stretch circle · 8 min · Kids.

TEENS PATH COPY:

Badge Course + app for teens. H1 Your calm. / Your circle. Body: Flows for busy school days, soft nights, and real confidence. No judgment. Just show up. Whisper Come as you are. CTAs Join free · Download app. Modules Focus 8, Flow 15, Soft strength 12, Sleep wind-down 10. Phone app title After-school reset · 12 min · Teens.

MOTION (exact):

Staggered entrance fade/up with ease [0.25, 0.46, 0.45, 0.94] about 0.7s for badge, titles, body, CTAs, modules, phone card.

Age path toggle crossfades the copy stack about 0.35s while the film keeps free-playing.

Module select updates phone card without stopping the film.

Desktop only: GSAP ScrollTrigger scales the film wrap 1 to 1.05, scrub about 1.2, start top top, end bottom top. Film time stays free-play loop.

prefers-reduced-motion: opacity-only or static entrance, no parallax, video paused on poster still.

TECHNICAL (you the AI implement this; the human may not be a developer):

Prefer React + TypeScript + Tailwind with one drop-in component (BloomYogaHero). If a files pack is available, prefer integrating source/BloomYogaHero.tsx over rewriting.

Video attributes: muted, playsInline, autoPlay, loop, preload auto, object-fit cover, aria-hidden.

IntersectionObserver: pause when off-screen, play when visible.

Fonts: load Plus Jakarta Sans with display swap. Prefer CSS variables --font-bloom-display and --font-bloom-body with system fallbacks.

Install when needed: framer-motion, gsap (+ ScrollTrigger), lucide-react.

Focus rings lilac. Semantic section, header, nav, h1, role=tablist for age path. Safe side padding so type never kisses the frame edge.

Soft-power language only. No body shame. No medical claims. No competitor brand names in UI.

QUALITY BAR:

It should feel like a Forbes-class kids wellness product homepage - soft, inevitable, expensive, impossible not to join. One clear system: free-play belonging class film + Kids/Teens path restage + peach craft. Never scrub the film. Never burn storefront UI into the rebuild. Never adult night spa.

When done: I should see the full Bloom experience with the background video linked above and every layout requirement above. If something is missing, fix it without asking me for code knowledge.

Copy this into Bolt

Select everything in the box area below (all parts if more than one page). Copy, then paste into Bolt. You do not need to understand the technical lines. Your AI does.

Build this as a complete page in Bolt. I am not a professional programmer. You handle all technical setup, libraries, and layout. Show me a working preview.

Build a premium full-viewport website hero for a kids and teen girls yoga course + app brand called BLOOM.

BACKGROUND VIDEO (required):

Use this video as the full-screen class film under the hero (not a small thumbnail):

<https://www.ClickMotion.dev/assets/videos/luna-yoga-v1.mp4>

If the buyer has a local files pack, use assets/luna-yoga-v1.mp4 placed at public/assets/videos/luna-yoga-v1.mp4 (or the path already set in source).

Poster still (while loading / reduced motion still): public/assets/posters/luna-yoga-v1.webp (or

<https://www.ClickMotion.dev/assets/posters/luna-yoga-v1.webp>).

The video must be silent. It MUST free-play as a muted looping class film (autoplay, muted, loop, playsinline). Scroll does NOT control video time. NEVER set video.currentTime from scroll. Optional desktop-only light scale parallax on the film WRAPPER only (scale about 1 to 1.05), never on the timeline.

LOOK AND FEEL:

Canvas warm paper #fff8f5. Ink type #2a2438. Lilac accent #c4a8e8. Peach solid CTA #ffb5a7. Kids butter pill #ffe8a3. Teens soft mint #b8e0d2.

Display and UI: Plus Jakarta Sans (or equal soft geometric), medium-semibold weight, tracking slightly tight on H1, line-height about 0.95, size clamp roughly 2.4rem to 5rem.

Body 15-16px, ink about 72 percent opacity.

Cream glass (paper about 72 percent + blur about 28px) for secondary controls and the age path. Full pills (radius 9999px). Soft shadows. Soft kids education prestige meets beauty-commerce warmth. Belonging class energy. Not adult dark spa, not neon cyber yoga, not emoji kids junk, not body-shame fitness, not STILL night hybrid scrub, not espresso travel wallpaper.

LAYOUT (exact structure):

Full viewport hero (100dvh / min-h 100dvh), overflow hidden, warm paper canvas under the film.

Video absolute cover, object-fit cover, under content.

Dual paper gradients over the film so type stays legible: left paper type field, bottom vignette, soft lilac rim glow at lower right. NEVER grey-wash the entire frame.

Fixed top nav: flower mark (lucide Flower2 or equal) + BLOOM wordmark left; desktop center links Classes, App, Ages, Stories; right: Sign in (glass pill) + Get the app (solid peach pill).

Content grid: left column about 6-7 of 12 cols on desktop, vertically centered or bottom-aligned on small screens, safe horizontal padding at least about 2rem:

- Age path tablist Kids | Teens (glass pill; active kids uses butter fill, active teens uses soft mint fill)

Customize without coding

You never have to open code. After the site is built, start a new message to the same AI and paste one of these lines. Fill in the brackets with your words.

Change the brand name

Ask your AI: "Change the brand name BLOOM to [YOUR BRAND NAME] everywhere in the design, including the top left wordmark and any aria labels."

Rewrite Kids and Teens paths

Ask your AI: "Rewrite the Kids path (badge, two title lines, body, whisper, CTAs, four modules with minutes) and the Teens path the same way for [MY YOGA BRAND]. Keep soft-power language. No body shame. No medical claims."

Change nav and CTAs

Ask your AI: "Replace nav links Classes, App, Ages, Stories with [MY FOUR LINKS]. Rename Sign in, Get the app, and both path primary/secondary CTAs to [MY LABELS]. Keep peach primary and glass secondary pills."

Change modules and phone card

Ask your AI: "Change the four Kids modules and four Teens modules (label + minutes) and the phone card titles/meta to [MY CLASS LIST]. Keep four modules per path and phone card update on chip select."

Change stats and parent line

Ask your AI: "Change the three stats 120+ interactive classes, 7-17 ages welcome, 10 min starter flows to [A], [B], [C]. Change the parent trust line to [PARENT LINE]. Keep three stats max."

Change colors

Ask your AI: "Keep a warm paper kids wellness look. Change paper #fff8f5, ink #2a2438, lilac #c4a8e8, and peach #ffb5a7 to [PAPER], [INK], [ACCENT], [CTA]. Keep readable ink-on-paper contrast. No neon primary system."

Use a different background video

Ask your AI: "Replace the hero class film with [YOUR VIDEO LINK OR FILE NAME] and update the poster still. Keep muted free-play loop, object-fit cover, and type-legibility paper scrims. Never scrub video.currentTime with scroll."

Change fonts or mark

Ask your AI: "Load my soft geometric sans as --font-bloom-display and --font-bloom-body. Swap the flower icon for [MY MARK]. Keep large two-line H1 scale."

Make it work on phones

Ask your AI: "Improve the mobile layout so headlines never clip, center nav links hide under 768px, CTAs stack cleanly, phone card stacks under content, safe padding stays at least 2rem, and film parallax is off under 768px."

Something looks wrong

Ask your AI: "Something is broken: [DESCRIBE WHAT YOU SEE]. Fix it and keep free-play muted class film loop, Kids/Teens path restage, dual CTAs, soft paper/lilac craft. Do not scrub video.currentTime. Do not ask me to write code."

New background video (optional)

Only if you want a different film. Open a video generation AI, paste the prompt below, generate a silent clip about 12 seconds long, then ask your coding AI to use your new file as the background.

COPY THIS INTO A VIDEO AI

Cinematic ultra-premium 4K seamless loop, 20 to 50 seconds, 24fps film feel, no audio. SUBJECT: Stylized diverse girls in a bright sunlit yoga class studio. Belonging circle energy, rainbow mats, soft white walls, warm daylight. Multi-girl class, not a single adult spa model. Soft natural poses, age-inclusive kid-to-teen energy (stylized, never creepy, never body-shame). CAMERA: Slow elevated glide or gentle orbit around the circle, locked prestige pace. One continuous move preferred. LOOK: Warm paper and cream highlights, lilac soft fill, peach sun edge. Clean beauty-commerce grade. Not neon cyber yoga, not dark spa, not clinical gym fluorescent. FORBIDDEN: logos, UI, captions, watermarks, brand names, adult dark spa only, empty mat only, body-shame fitness energy. TECH: 16:9, 3840x2160 preferred or 1920x1080 minimum, silent. Seamless loop: end frame compositionally matches start. After export: save as public/assets/videos/luna-yoga-v1.mp4, poster to public/assets/posters/luna-yoga-v1.webp, keep muted free-play loop, never scrub video.currentTime with scroll, keep type-legibility paper scrims.

Then tell your coding AI

Ask your AI: "Use my new video file [FILE NAME OR LINK] as the full-screen background. Keep the same Bloom layout and behavior."

You are ready

- Your video link is on the video page of this package and inside every tool prompt.
- Pick one AI tool (or Your Smart AI Agent), paste that full prompt, and let it build.
- Customize by asking your AI in plain English. You do not need to know React or other frameworks.
- Brand site: www.ClickMotion.dev

ClickMotion

www.ClickMotion.dev

If something fails, paste the error into your AI and say: "Fix this for me without asking me to write code."
