WHAT IS INSIDE

- Your background video link (and how to use the file)

Start here (about 10 minutes)

Follow these steps in order. If you get stuck, paste the error message into the same AI and ask it to fix the project for you.

Step 1

Save your background video somewhere easy to find. You can use the link below or the video file that came with this package.

Step 2

Open the AI tool you already use.

Step 3

Find that tool's section in this PDF (or "Your Smart AI Agent" if your tool is not listed by name). Select the whole prompt under "Copy this into [tool]". Copy it.

Step 4

Paste it into a new chat or project in that tool and run it. Let the AI build everything.

Step 5

When the preview looks absolutely stunning, ask your AI: "Explain in plain language how I open and share this site."

Step 6

To change wording, colors, or branding, use the "Ask your AI to change..." lines later in this PDF. You do not edit code by hand unless you want to.

YOUR BACKGROUND VIDEO LINK

<https://www.ClickMotion.dev/assets/videos/orbit-vault-v1.mp4>

Offline file name if you were given a file: orbit-vault-v1.mp4. A still image may be included next to your video file for a clean first frame.

Your background video

Customize without coding

You never have to open code. After the site is built, start a new message to the same AI and paste one of these lines. Fill in the brackets with your words.

Change brand name

Ask your AI: "Change ORBIT wordmark and Open account CTA to [MY BANK] and [MY CTA]. Keep navy vault + gold energy."

Rewrite banking copy

Ask your AI: "Rewrite Money, elevated., lead, badge, and proof for [MY NEOBANK BRAND]. No guaranteed returns. No em dashes."

Swap the film

Ask your AI: "Use my MP4 as the hero film at public/assets/videos/orbit-vault-v1.mp4 with a matching poster. Keep muted free-play. Never scrub with scroll."

Colors

Ask your AI: "Change canvas #0B1426, gold #C9A84C, cream #F7F4EC to my tokens. No cyan Motionsites primary. No crypto neon."

New background video (optional)

Only if you want a different film. Open a video generation AI, paste the prompt below, generate a silent clip about 12 seconds long, then ask your coding AI to use your new file as the background.

COPY THIS INTO A VIDEO AI
