

YOUR PRODUCT PACKAGE

Sable

Holiday Luxury Fashion Walk Hero

A private-house holiday homepage where a full uncut winter walk film is the product - sparse editorial type, ready for your AI coding tool.

WHAT IS INSIDE

- Your background video link (and how to use the file)
- A ready prompt for Cursor, Claude, Grok Build, Lovable, Codex, Bolt or any smart AI
- Simple ways to ask your AI to customize text, colors, and the video look

You do not need to know how to program. Your AI does the technical work.

www.ClickMotion.dev

Start here (about 10 minutes)

Follow these steps in order. If you get stuck, paste the error message into the same AI and ask it to fix the project for you.

Step 1

Save your background video somewhere easy to find. You can use the link below or the video file that came with this package.

Step 2

Open the AI tool you already use.

Step 3

Find that tool's section in this PDF (or "Your Smart AI Agent" if your tool is not listed by name). Select the whole prompt under "Copy this into [tool]". Copy it.

Step 4

Paste it into a new chat or project in that tool and run it. Let the AI build everything.

Step 5

When the preview looks absolutely stunning, ask your AI: "Explain in plain language how I open and share this site."

Step 6

To change wording, colors, or branding, use the "Ask your AI to change..." lines later in this PDF. You do not edit code by hand unless you want to.

YOUR BACKGROUND VIDEO LINK

<https://www.ClickMotion.dev/assets/videos/sable-winter-v1.mp4>

Offline file name if you were given a file: sable-winter-v1.mp4. A still image may be included next to your video file for a clean first frame.

Your background video

This is the film that plays behind the Sable design. Keep this link. It is also written inside every AI prompt below so your AI can attach it automatically.

VIDEO URL

<https://www.ClickMotion.dev/assets/videos/sable-winter-v1.mp4>

File name: sable-winter-v1.mp4

What the film shows: a complete winter village walk of a fashion figure in a refined grey ribbed look, soft snow, holiday lights, uncut continuous motion. About 17 seconds, silent, loops.

Prefer the URL when online. If you were given a local download, tell your AI: "Use my local file sable-winter-v1.mp4 as the full-screen background video."

Copy this into Cursor

Select everything in the box area below (all parts if more than one page). Copy, then paste into Cursor. You do not need to understand the technical lines. Your AI does.

You are building production UI in my coding editor (Cursor). Create the files I need and keep the solution clean and complete.

Build a premium full-viewport luxury fashion holiday website HERO for a private house brand called SABLE (wordmark: SABLE. with a champagne-gold period).

BACKGROUND VIDEO (required - FREE-PLAYING FULL FILM, never scroll scrub, never cut):

Use this video as the full-screen background film:

<https://www.ClickMotion.dev/assets/videos/sable-winter-v1.mp4>

If the user has a local file named sable-winter-v1.mp4, use that path instead of downloading.

The video is silent. It plays the COMPLETE walk uncut with autoPlay muted loop playsInline.

object-fit cover, object-position center about 42% vertical so the walking figure stays framed.

Do NOT map scroll to video.currentTime. Do NOT trim the film. The full duration is the product.

Soft charcoal edge veils only - keep the center subject clear. Soft vignette. No heavy fog over her face.

LOOK AND FEEL - MINIMAL PRIVATE-HOUSE LUXURY:

Dark ink stage #0C0B0A under the film edges. Ivory type #F7F3EC. Champagne gold #C4A574.

Display: Cormorant Garamond (or fine transitional serif). Utility: Inter.

Sparse. Quiet. Expensive. Holiday without kitsch. No pill nav. No glass card stacks. No mid-frame marketing essays.

Think The Row / Toteme film discipline. Forbes top-tier restraint.

LAYOUT (sparse by law):

Top nav: brand SABLE. left (tracking wide, gold period). Center links: Collection, Look, House, Reserve. Right: Book private view (underline gold).

Top-left intro only: season "Holiday 2026" in gold uppercase micro type. House line "Maison Sable · Private collection" in soft serif.

CENTER: intentionally empty - the walk is the product.

Bottom: label "Maison Sable" + film time readout. Hairline gold progress bar driven by video.currentTime / duration (true film clock, not scroll).

Line under bar: "The holiday season is a time for love and luxury."

Footer row: "Holiday · Private collection" + ivory CTA button "Discover the collection →".

Short scroll pin (~180vh) for atmosphere only - optional 8px intro Y drift. Never seek the film.

FORBIDDEN:

Scroll-scrubbing the video. Cutting the video. Mid-frame chapter titles or body essays over the subject.

Word "Atelier" as UI filler. Purple mesh, neon, emoji, Motionsites pill docks, dense metric cards on the film.

TECHNICAL:

React + TypeScript. Framer Motion optional for intro drift and reduced-motion.

Video: muted, loop, autoPlay, playsInline, full uncut duration.

Single default-export component SableHolidayHero. Props: brand, backgroundSrc.

prefers-reduced-motion: static fallback, no required autoplay.

QUALITY BAR:

It should feel like a private holiday film from a serious fashion house - quiet, complete, uncut. The UI frames; the walk sells.

When done: I should see the full Sable experience with the background video linked above and every layout requirement above. If something is missing, fix it without asking me for code knowledge.

Copy this into Claude

Select everything in the box area below (all parts if more than one page). Copy, then paste into Claude. You do not need to understand the technical lines. Your AI does.

You are my coding assistant. Build a complete, production-ready solution I can use. Explain briefly what you created after you finish, in plain language.

Build a premium full-viewport luxury fashion holiday website HERO for a private house brand called SABLE (wordmark: SABLE. with a champagne-gold period).

Customize without coding

You never have to open code. After the site is built, start a new message to the same AI and paste one of these lines. Fill in the brackets with your words.

Change the brand name

Ask your AI: "Change the brand name SABLE to [YOUR BRAND] everywhere, including the top left wordmark and gold period."

Change the season and house line

Ask your AI: "Change Holiday 2026 to [YOUR SEASON] and Maison Sable · Private collection to [YOUR HOUSE LINE]. Keep sparse type."

Change the holiday line

Ask your AI: "Change The holiday season is a time for love and luxury. to [YOUR LINE]. Keep it one quiet sentence."

Change the CTA

Ask your AI: "Rename Discover the collection to [YOUR CTA] and Book private view to [YOUR NAV CTA]. Keep ivory luxury buttons."

Use a different background video

Ask your AI: "Replace the background video with [YOUR VIDEO LINK OR FILE]. Keep it muted, looping, free-playing, FULL uncut. Do not scroll-scrub."

Change colors

Ask your AI: "Keep private-house luxury, but shift champagne gold to [HEX] and keep ivory type readable on the film."

Make it work on phones

Ask your AI: "Improve mobile so the figure stays centered, nav stays clean, and the CTA is easy to tap. Keep the film full and uncut."

Something looks wrong

Ask your AI: "Something is broken: [DESCRIBE WHAT YOU SEE]. Fix it and keep Sable sparse holiday luxury. Do not ask me to write code."

New background video (optional)

Only if you want a different film. Open a video generation AI, paste the prompt below, generate a silent clip about 12 seconds long, then ask your coding AI to use your new file as the background.

COPY THIS INTO A VIDEO AI

Cinematic 4K silent seamless loop, about 17 seconds, 24fps. Fashion figure walking a snowy European holiday village street, refined monochrome knit look, soft snow, warm window light, elegant and quiet. No logos, no UI text, no watermark. Full continuous walk.

Then tell your coding AI

Ask your AI: "Use my new video file [FILE NAME OR LINK] as the full-screen background. Keep the same Sable layout and behavior."

You are ready

- Your video link is on the video page of this package and inside every tool prompt.
- Pick one AI tool (or Your Smart AI Agent), paste that full prompt, and let it build.
- Customize by asking your AI in plain English. You do not need to know React or other frameworks.
- Brand site: www.ClickMotion.dev

ClickMotion

www.ClickMotion.dev

If something fails, paste the error into your AI and say: "Fix this for me without asking me to write code."
