

YOUR PRODUCT PACKAGE

VerveSocial

Creator Social Platform Hero

A plum-night culture film free-plays under bold presence type and an infinite community marquee.
Rebuild the lockup, marquee tokens, and film until every pixel reads as your brand alone.

WHAT IS INSIDE

- Your background video link (and how to use the file)
- A ready prompt for Cursor, Claude, Grok Build, Lovable, Codex, Bolt or any smart AI
- Simple ways to ask your AI to customize text, colors, and the video look

You do not need to know how to program. Your AI does the technical work.

www.ClickMotion.dev

Start here (about 10 minutes)

Follow these steps in order. If you get stuck, paste the error message into the same AI and ask it to fix the project for you.

Step 1

Save your background video somewhere easy to find. You can use the link below or the video file that came with this package.

Step 2

Open the AI tool you already use.

Step 3

Find that tool's section in this PDF (or "Your Smart AI Agent" if your tool is not listed by name). Select the whole prompt under "Copy this into [tool]". Copy it.

Step 4

Paste it into a new chat or project in that tool and run it. Let the AI build everything.

Step 5

When the preview looks absolutely stunning, ask your AI: "Explain in plain language how I open and share this site."

Step 6

To change wording, colors, or branding, use the "Ask your AI to change..." lines later in this PDF. You do not edit code by hand unless you want to.

YOUR BACKGROUND VIDEO LINK

<https://www.ClickMotion.dev/assets/videos/verve-presence-v1.mp4>

Offline file name if you were given a file: verve-presence-v1.mp4. A still image may be included next to your video file for a clean first frame.

Your background video

This is the film that plays behind the VerveSocial design. Keep this link. It is also written inside every AI prompt below so your AI can attach it automatically.

VIDEO URL

<https://www.ClickMotion.dev/assets/videos/verve-presence-v1.mp4>

File name: verve-presence-v1.mp4

What the film shows: human presence / social culture cinema for a muted autoplay hero. About 15 seconds, silent MP4 loop. No competitor logos or UI. Pack includes poster still verve-presence-v1.webp. If you have the files zip, client film lives under assets/ as verve-presence-v1.mp4.

Prefer the URL when online. If you were given a local download, tell your AI: "Use my local file verve-presence-v1.mp4 as the full-screen background video."

Copy this into Cursor

Select everything in the box area below (all parts if more than one page). Copy, then paste into Cursor. You do not need to understand the technical lines. Your AI does.

You are building production UI in my coding editor (Cursor). Create the files I need and keep the solution clean and complete.

Customize without coding

You never have to open code. After the site is built, start a new message to the same AI and paste one of these lines. Fill in the brackets with your words.

Change brand name

Ask your AI: "Change VERVE wordmark and Join free CTA to [MY APP] and [MY CTA]. Keep plum night + rose energy."

Rewrite social copy

Ask your AI: "Rewrite BE PRESENT / BE TOGETHER, body, marquee tokens, and proof for [MY COMMUNITY BRAND]. No competitor names. No em dashes."

Swap the film

Ask your AI: "Use my MP4 as the hero film at public/assets/videos/verve-presence-v1.mp4 with a matching poster. Keep muted free-play. Never scrub with scroll."

Colors

Ask your AI: "Change canvas #1A0A14, rose #EC4899, amber #F59E0B to my tokens. No cyan Motionsites primary."

New background video (optional)

Only if you want a different film. Open a video generation AI, paste the prompt below, generate a silent clip about 12 seconds long, then ask your coding AI to use your new file as the background.

COPY THIS INTO A VIDEO AI

Cinematic ultra-premium 16:9 silent loop, 15-30s, 24fps. Premium Gen-Z social culture energy, plum shadows, rose and amber practicals, human presence, large dark voids for type. No UI captions, no hashtags burned into frame, no cyberpunk rain city. After export: public/assets/videos/verve-presence-v1.mp4 and poster webp. Keep muted free-play; never scrub with scroll.

Then tell your coding AI

Ask your AI: "Use my new video file [FILE NAME OR LINK] as the full-screen background. Keep the same VerveSocial layout and behavior."

You are ready

- Your video link is on the video page of this package and inside every tool prompt.
- Pick one AI tool (or Your Smart AI Agent), paste that full prompt, and let it build.
- Customize by asking your AI in plain English. You do not need to know React or other frameworks.
- Brand site: www.ClickMotion.dev
